ABOUT ME

Computer Applications student with hands-on experience in AI/ML and Full-Stack Development. Skilled in Python, Flask, PHP, MySQL, HTML, CSS, JavaScript, and AI-powered application development. Built projects including an AI Resume Analyzer, AI Voice Assistant, Auto Reply Chatbot, and User Management System. Completed a Web Development internship, gaining practical experience in software development workflows, teamwork, and problem-solving. Passionate about Artificial Intelligence, software engineering, and continuously learning new technologies to build real-world solutions.

SKILLS

- Python
- Java
- PHP
- MySQL
- Git & GitHub
- VS Code

DESIGN TOOLS

- HTML
- CSS
- Java Script

PYTHON LIBRARIES

- Numpy
- Pandas

FRAMEWORK

- Flask
- Django

EDUCATION

Bachelor of Computer Science
(7.42 CGPA)

SMT L P SAVANI SATUABABA BCA
COLLEGE (2023- 2026)

ACHIEVEMENTS

- Internship Certificate
- Software engineer intern
- SQL Certificate

LANGUAGES

- English
- Hindi
- German(Basic)

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Communication
- Quick Learning
- Adaptability

EXPERIENCE

PHP INTERN

Triple One Studio

- Completed internship in the Web Development Department.
- Gained hands-on experience in web application development and real-world software development workflows.
- Worked under the guidance of the Project Manager, contributing to practical development tasks and project-based activities.
- Applied academic knowledge to industry projects while enhancing problem-solving, teamwork, and communication skills.
- Developed an understanding of professional work culture, software development practices, and collaborative project execution.

PROJECTS

User management system

- Developed a secure web-based User Management System with user registration, login, password recovery, and role-based authentication.
- Implemented admin dashboard features for managing users, viewing statistics, and performing CRUD operations.
- Integrated MySQL database for secure user data storage and management.
- Designed a responsive and user-friendly interface with authentication and access control mechanisms.

Technologies Used: Php , MySql , Html , Css , Javascript , Bootstrap

AI-Resume Analyzer

- Built an AI-powered web application to analyze resumes against target job roles.
- Extracted and processed PDF/DOCX resumes for automated skill assessment.
- Integrated OpenAI API to identify skill gaps, generate learning roadmaps, and suggest interview questions.
- Implemented user authentication and report storage using Flask and SQLAlchemy.

Technologies Used: Python, NumPy , Pandas , Flask , MySQL

Auto Reply_chatbot

- Built an AI-powered chatbot automation tool for generating context-aware replies.
- Integrated OpenAI API to analyze conversations and create human-like responses.
- Automated chat monitoring, message extraction, and reply delivery using PyAutoGUI.
- Improved communication efficiency through real-time response automation.

Technologies Used: Python, OpenAI API , PyAutoGUI , OpenAI Python SDK , Time Module

AI Voice Assistant

- Developed an AI-powered voice assistant capable of understanding and responding to voice commands in real time.
- Integrated speech recognition and text-to-speech functionalities for seamless voice interaction.
- Connected OpenAI API to generate intelligent responses and assist users with various tasks.
- Implemented features such as web browsing, music playback, and live news retrieval through external APIs.
- Designed an interactive desktop assistant to automate daily activities and improve user productivity.

Technologies Used: Python, OpenAI API, SpeechRecognition, Pytsx3, Requests, WebBrowser, News API
